

Christians Against Anti-Semitism

“Christians United for Israel is at war with anti-Semitism.
Anti-Semitism is not a Jewish problem, it is everybody’s problem.”

Pastor Hagee, CUFI Founder, July 2018

CUFI’s declaration is an opportunity for Christians to commit to lead by example, calls for tougher action against anti-Semitism and addresses the current crisis within the Labour Party.

For the safety and security of the Jewish people in Britain and for the future of our country, we will not allow the Jewish community to stand alone.

We would like to send a clear message of solidarity to the UK Jewish community in the fight against the evil of anti-Semitism. Join thousands of Christians that have already signed by adding your name overleaf.

- **We condemn anti-Semitism in the strongest possible terms**
We condemn all forms of anti-Semitism and will not tolerate its existence in any sphere of our society. For the safety and security of the Jewish community and for the future of our country, we will not be silent.
- **We stand with the Jewish people in the fight against anti-Semitism**
We commit to support our Jewish brothers and sisters and do all we can to root out the evil of anti-Semitism from our nation. We will not allow the Jewish community to stand alone.
- **We call for tougher action towards anti-Semitism within the Labour Party**
We are appalled that anti-Semitism exists and is allowed to thrive within the Labour Party and strongly oppose how cases have been handled by the current Labour leadership. We acknowledge the concerns expressed in the joint-statement published by three of Britain’s Jewish newspapers (Jewish News, Jewish Chronicle and Jewish Telegraph) and call upon the Labour Leadership to urgently address these concerns. We also give our full support to those Jewish MPs within Labour who have been subjected to harassment and intimidation amid this crisis.
- **We agree with the International Definition of Anti-Semitism**
We believe that the International Holocaust Remembrance Alliance (IHRA) definition of anti-Semitism and all its stated examples should be accepted by the Labour Party in its entirety, having been adopted by the government and over 130 local councils, and importantly accepted by the Jewish community as a satisfactory definition of Jew-hatred.
- **We commit to lead by example**
A hatred for the Jewish people and the Jewish State, Israel, is in direct conflict with the Bible and is inconsistent with the very basis of our Christian faith. Whilst recognising that the church hasn’t always been faithful to the Jewish people, we affirm that true Christians love the Jewish people and condemn the evil of anti-Semitism. As a demonstration of our support for the Jewish community in the UK, we call upon other institutions, including church denominations and affiliations, to adopt the IHRA definition and all its examples.
